**Subject:** RE: CSC Teleconference summaries and attachments for FOIA releasabilitiy

Leslie,

We were told that here at HQ in our office (which is separate from the enforcement office) that we cannot use “enforcement confidential”. OSRTI does not do any enforcement. We should be using deliberative/confidential. Pre-decisional would be okay too.

our cover letters have the CBI footer, but actual deliverables have “Pre-Decisional/Enforcement Confidential” footers. I’m involving Terry as the HQ WAM as FOIA is an EPA issue.

**Subject:** RE: CSC Teleconference summaries and attachments for FOIA releasability

Thanks a bunch. We noticed that emails end with the CBI stamp, and then the tech support cover letter shows CBI, but the attachments are typically Enf. Confidential. I have been trying to maintain this all as privileged so that strategies are protected, but this may not all be able to be protected unless CSC has a good justification that our attorney can then maintain.

**Subject:** CSC Teleconference summaries and attachments for FOIA releasability

Katharine, I don't know if you are the decision maker on such things, but most if not all CSC deliverables tend to have a CBI stamp on the cover, with the assumption that the attached technical support information is also CBI.

In particular, we have a FOIA for the Upper Animas Mining District/Upper Cement Creek and our attorney has asked me to have CSC confirm that the CSC Technical Support memos and notes are in fact to be maintained as CBI. If so, we need CSC to substantiate why maintaining CBI is in CSC's interest.

As is typical with FOIAs, this is time sensitive and Richard Sisk was hoping to have this information today, or just as soon as possible. Please reply to both Richard Sisk and me.

Thanks for your assistance in this matter.

Sincerely,

Sabrina Forrest
